Give Your Child A Healthy Smile!

Nearly 1 in 4 South Dakota children has untreated tooth decay. It is the #1 chronic disease of childhood, but nearly 100% of cavities can be prevented.

A toothache can make it hard for a child to eat, sleep and pay attention at school. Untreated tooth decay can cause pain bad enough to miss school or even visit the emergency room.

Delta Dental has two trucks that travel the state giving quality dental care to children who can't afford or access a dentist because of cost, lack of insurance, transportation, or other reasons.

One of Delta Dental's trucks is coming to our community:

Dates: November 4-8, 2019

Location: Sturgis Elementary

If your child has not seen an area dentist for two years, or if you live more than 85 miles from a dentist, this is a great way to give your child a healthy smile.

There is no cost to the child or family. No insurance is necessary. A full range of dental services are offered, including exams, cleanings, preventive treatments, and cavity fillings.
